

GFPRMX6

Storm

WINTER

DESIGNED
TO PROTECT

Features

- ▲ Force360's exclusive Enduro fabric gives assured quality, 0.8mm thickness, colour fastness and exceptional abrasion resistance
- ▲ 4 Way Spandex is used in this glove construction allowing complete hand movement and flexibility
- ▲ 3M™ 100gsm breathable Thinsulate™ winter lining is used to keep hands warm from extreme cold
- ▲ Internal Hypora membrane keeps liquids out of the glove, keeping hands dry
- ▲ Combined Neoprene and Storm cuff to keep hands warm and repel debris
- ▲ Silicon enhanced grip
- ▲ Only selected materials that allow air flow are used to ensure 360° air circulation and enhanced breathability
- ▲ UPF50+ offering maximum sun protection
- ▲ Reinforced double stitching for increased durability
- ▲ The ID area allows the wearer to mark their gloves with their name for easy ownership recognition or add an issue date for usage monitoring

Standards & Certification

EN388:2016

3243A

Force360 recognise that without product certification by a Notified Body all product performance testing, and adherence to standards claims cannot be independently verified. If they are not as claimed, serious safety implications for the wearer, and legal implications for the supplier and even the employer may arise. Force360 source their entire range of Mechanics hand protection from a single manufacturing partner to ensure consistency and reliability of product, but most importantly Force360 have taken the further step of engaging a globally recognised Notified Body to audit and certify both the manufacturing process and the products. All of Force360's hand protection is certified to the latest AS/NZS hand protection standards.

Key Technologies

Enduro Synthetic

Force360's exclusive Enduro fabric is a premium sourced Korean synthetic leather. Assured quality, 0.8mm thickness and colour fastness combine with exceptional abrasion resistance to provide the wearer with a long wearing protective glove.

3M™ Thermal Lined

3M™ 100gsm breathable Thinsulate™ winter lining is used to keep hands warm from extreme cold.

360° Breathability

Keeping hands cool is critical for comfort and improved wearer compliance. Only selected materials that allow air flow are used to ensure 360 degree air circulation and enhanced breathability.

4 Way Spandex

Force360 only uses 4 Way Spandex in its glove construction allowing complete hand movement and flexibility.

Reinforced Wear Points

Force360 gloves last longer due to a double layer fabric coupled with double stitching reinforcement in high wear areas.

Reach Compliance

Required Safe pH Level

Certified under AS/NZS 2161.2:2020

AZO Dye and Irritant Chemical Free

Certified under AS/NZS 2161.2:2020

Sun Protection

UPF50+ Sun Protection

Pass under AS/NZS 4399 Sun Protective Clothing.

Tested by Australian Radiation Protection And Nuclear Safety Agency (ARPANSA).

Glove Care

Machine Wash <40°C

Cold Water Rinse

Dryer <60°C
